

Czech circular hotspot

The Czechinvest (Czech Organization for Business Support) and the INCIEN (organization focusing on innovative environmental management) joined forces by establishing the **Czech Circular Hotspot** to unite the circular economy and small business entrepreneurship.

The Czech circular hotspot is focus on domestic companies that use the concept of circular economy and their development at the international level. It is an initiative emerging in cooperation with the Institute of Circular Economics and the Embassy of the Kingdom of the Netherlands in the Czech Republic, which aims to facilitate access to Czech and foreign know-how, technologies and capital in the field of circular economics and eco-innovation.

The vision of the Czech Circular Hotspot is to place the Czech Republic as a European leader in the circular economy.
