

resource request: Flaxseed variety “Sandra”

resource request: Flaxseed variety “Sandra”	
Description	We are looking for a particular variety of flaxseed (<i>Linum usitatissimum</i>) called “Sandra” to revive flax cultivation in Austrian agriculture. We also would like to include variety “Sandra” in a comparative analysis for the development of ecoinnovative flaxseed-derived products. We kindly ask foreign partner countries to forward this request to relevant institutions/agriculture authorities etc.
Technical details	viable seeds of flaxseed variety Sandra, minimum needed: 10kg, ideally from organic agriculture
Form of cooperation	purchase to end user
Location	Austria (Carinthia, close to Slovenian border)
